The material was not tested by cross breeding with other forms (the purest known) to determine whether the F1 hybrids were uniform, a most necessary test in the establishment of a stock as homozygous. Thus from our present viewpoint we cannot accept MacDougal s conclusion since the probabilities are very great that the new types which appeared in his cultures were produced not as the result of the injections but because of the genetic impurity of the plants themselves. In the above discussion the writer has taken definitely a Mendelian attitude in sympathy with the criticisms of Bateson and the studies of Heribert-Nilsson (12) and of Renner (14). There are constant suggestions of order in the phenomena of inheritance among the cenotheras which while they may not fall into simple schemes of Mendelian notation nevertheless do indicate system even though masked by complexities....
