

Historic Aircraft Wrecks of San Diego County

By G Pat Macha

History Press, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book. Clear weather and a natural harbor made San Diego an early aviation hub, but success in flight came with devastating tragedies. The remains of more than four hundred aircrafts lie scattered across the countys deserts and mountains. Experts estimate that dozens more are on the ocean floor off the coast. In 1922, army pilot Charles F. Webbers DeHavilland biplane went missing over Cuyamaca Rancho State Park. In 1978, Pacific Southwest Airlines Flight 178 collided midair over San Diego and crashed in the residential North Park neighborhood, claiming the lives of 144 people in what was the worst airline disaster of the era. Author and aircraft accident research specialist G. Pat Macha recounts these and other stories of astonishing survival, heroism and heartbreaking fatality.

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
