## signals and systems based

By CHEN CONG YAN ZHAI JUN YONG

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Publisher: Machinery Pub. Date :2010-02-24. This book includes seven chapters: Introduction. continuous-time signals and systems. Fourier analysis of continuous-time signals. continuous LTI complex frequency domain system analysis. discrete-time signals and systems. discrete LTI Z-domain system analysis. system state variable analysis. This book focused. structured. systematic focus on knowledge. relevance and nature; focus on theory and practice. to develop engineering ability. In addition. the book comes with a complete electronic courseware to facilitate teaching. This book can be used as ordinary institutions of higher learning automation. electrical engineering. control technology and equipment. electronic science and technology. microelectronics and optical information science and technology professional undergraduate teaching. but also as related engineering and technical personnel to learn reference book. Contents: Preface Teaching suggestions publication Symbols Chapter 1 Introduction 1.1 The concept of signals and systems systems 1.1.1 1.1.2 1.2 signal the nature of the signal of the two parity 1.2.2 1.2.1 1.3 system periodic signal analysis 1.4 Summary Exercises Chapter 2 continuous-time signals and systems 2.1 continuous-time signal transformation operation time transformation 2.1.2 2.1.1 2.2 continuous-time signal amplitude transform time-domain...

### Reviews

*Extensive guide! Its such a excellent read. This can be for anyone who statte that there was not a worth looking at. I am just effortlessly will get a satisfaction of looking at a written publication.*

-- **Melvin Hettinger**

*This book will not be effortless to start on reading through but very exciting to learn. It is amongst the most remarkable book i have got go through. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Dr. Easton Collier DVM**
