It is such an honor for me to share my poetry. To share my heart, mind and soul makes me feel so good so humble. Here you have a collection of more of my work. Full of love and hope and other emotions along the way. This collection of poetry is not my first rodeo of sharing through a book. I have been of course through this all before. But as I create upon the basis of publishing I learn so much upon what I can do the next time and beyond that. To the first poem upon my dedication to my parents and their 50th to the last upon the very title of this book expressing the life blood of my muse. I cherish being able to get everything out and just expressing myself at will. Being a private, Being to myself most of the time I find poetry helping me. My true medication from anxiety and depression and just feeling like I belong within the unlimited realm for what it gives me. This is my universe. Each poem is my galaxy and into that structure it goes to my system and into my planets and suns as everything has some sort of purpose upon its very own infrastructure. Such an adventure it is. This item ships from La Vergne, TN. Paperback.
